

KINGSLEY MANELA KALIYE

House No. P389, Kitwe

0967268298 kaliye.kingsley@yahoo.com

PROFESSIONAL SUMMARY

Ambitious and creative artisan with troubleshooting, installation and maintenance skill set tailored for fast changing industrial applications with more than ten years work experience.

SKILLS

- Able to wire field instruments up to PLC I/O card
- Able to troubleshoot and rectify instrumentation faults
- Able to configure various instruments
- Able to read P&ID drawings
- Able to carry out Fibre Optic maintenance and troubleshooting
- Basic Computer networking

WORK HISTORY

LUBAMBE COPPER MINE (Winders & Underground)

Instrumentation Technician – 07/2019 to Date

Duties include installation, calibration and maintenance of the following instruments:

- Stationary and mobile weighing scales
- Temperature sensors (RTDs and Pyrometers)
- Speed sensors (Tachometers, incremental and absolute encoders)
- Limit switches
- Flow Transmitters and Switches
- Pressure transmitters and Switches
- Level transmitters and Switches
- Temposonic probes
- Proximity sensors and switches
- Simocode Pro V
- Current measurement systems (using Shunt Resistors)
- Profibus DP (Nodes, Connectors and Terminators)
- Fibre Optic codes and converters;
 - Single and Multimode patch codes

- Optic, Copper, and Profibus converters
- Siemens PLCs
- Mitsubishi PLCs

CHAMBISHI METALS PLC.

Instrumentation artisan – 09/2013 to 05/2019

Calibration, Configuration, installation and maintenance of the following instruments:

- Temperature sensors (RTDs and Thermocouples)
- pH sensors and Transmitters
- Control valves
- Magnetic flowmeters
- Pressure Transmitters
- Belt tracking systems
- Vibration sensors
- Displacement sensors
- Conductivity meters
- Gas analyzers
- CCTV Cameras

KONKOLA COPPER MINES Plc. (Tailings Leach plant) - NCHANGA IBU

Instrumentation artisan – 03/2008 to 06/2011

Calibration, Configuration, installation and maintenance of the following field instruments:

- Flow Switches and transmitters
- pH Transmitters
- Rotometers
- Radio Transmitters
- Temperature Transmitters

KONKOLA COPPER MINES PLC (Smelter) – Kitwe

Junior instrumentation artisan – 01/2008 to 12/2008

Maintenance of the following field instruments:

- Pressure transmitters and gauges
- Temperature transmitters (RTDs, Thermocouples and Pyrometers)
- Speed sensors
- Flow transmitters

- pH transmitters
- limit switches
- Tachometers
- Integrators

EDUCATION

Kitwe Trades School – Kitwe

Process Instrumentation, 2006 – 2008

Qualification – Craft Certificate

Kasempa Day Secondary School – Kasempa

School Certificate, 2002 – 2004

Others: Fibre Optic Certification - ICT

Responsibilities:

- School Head boy
- Head – JETS Club

ACCOMPLISHMENTS

Designed, wired and commissioned annunciator circuit for acid neutralization for process and cooling water system at acid plant Chambishi Metals which helped to protect process lines whenever an acid leakage occurred.

AFFILIATION

Member of Engineering Institute of Zambia
